2013*	38,439	2	Five or fewer	15.50%	15.02%	16.83%	N.A	N.P	N.P	100

N.A. - Information is not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year. *Results shown for the year 2013 represent partial period performance from July 1, 2013 through December 31, 2013. **Net performance reflects the gross-of-fees return reduced by the investment management fee incurred. Effective 1/2016, net performance is calculated by deducting the actual investment management fee incurred by each portfolio in the composite. Prior to 1/2016, net-of-fee returns reflect the deduction of the highest annual management fee, calculated on a monthly basis. N.P. - Information is not presented because 36 monthly returns are not available. Effective December 2014, the Global Equity Shareholder Growth Composite name has been changed to the Global Equity Capital Reinvestment Composite. There has been no change to the underlying strategy and/or management of the product. A complete list of composite descriptions is available upon request.

- Global Equity Capital Reinvestment Composite contains fully discretionary portfolios managed by Epoch using an investment strategy that focuses on companies that reinvest in their businesses to grow free cash flow. We seek companies that are good capital allocators, and that use capital effectively to fund internal projects or to make acquisitions. Our research indicates that companies that make investments, internally or externally, that generate a marginal return on invested capital that exceeds their marginal cost of capital will increase in value. Global Equity Capital Reinvestment pursues attractive total returns by investing in a diversified portfolio of these companies with persistent, high return on invested capital (ROIC) which is achieved through their allocation to the growth-oriented uses of free cash flow, namely investment in internal projects and acquisitions. The portfolio generally holds between 90 and 130 stocks from equity markets worldwide, with risk controls to diversify the sources of growth and reduce volatility. The minimum account size for this composite is \$500 thousand.
- For comparison purposes the composite is measured against the MSCI World (Net) Index [Net total return indices reinvest dividends after the deduction of withholding taxes, using (for international indices) a tax rate applicable to non-resident institutional investors who do not benefit from double taxation treaties].
- Epoch Investment Partners, Inc. claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Epoch Investment Partners, Inc. has been independently verified for the periods June 21, 2004 through September 30, 2018. The verification report(s) is/are available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation.
- Epoch Investment Partners, Inc. is a wholly owned subsidiary of The Toronto Dominion Bank. Epoch Investment Partners, Inc. ("Epoch") became a registered investment adviser under the Investment Advisers Act of 1940 in June 2004. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.
- Results are based on fully discretionary accounts under management, including those accounts no longer with the firm.

Global Equity Capital Reinvestment

6. Valuations are computed and performance is reported in U.S. dollars. Returns are presented gross and net of management fees and include the reinvestment of all income. Gross-of-fees returns are presented before management fees but after all trading expenses. Net performance reflects the gross-of-fees return reduced by the investment management fee incurred. Effective 1/2016, net performance is calculated by deducting the actual investment management fee incurred by each portfolio in the composite. Prior to 1/2016, net-of-fee returns reflect the deduction of the highest annual management fee, calculated on a monthly basis. Returns include the effect of foreign currency exchange rates. Composite and benchmark (international indices) returns are presented net of non-reclaimable withholding taxes.
7. Internal dispersion is calculated using an asset-weighted standard deviation of annual gross returns of those accounts that were included in the composite for the entire year. Internal dispersion figures that are not meaningful due to the limited number of accounts in the composite are annotated by N/A. The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36-month period.
8. The Global Equity Capital Reinvestment Composite was created in June 2013. Effective December 2014, the Global Equity Shareholder Growth Composite name has been changed to the Global Equity Capital Reinvestment Composite. There has been no change to the underlying strategy and/or management of the product. A complete list of composite descriptions is available upon request.
9. The investment management fee schedule is as follows:

Global Equity Capital Reinvestment (Separate account minimum: \$25 million)	
ASSETS UNDER MANAGEMENT	FEE
First \$50 million	0.70%
Next \$50 million	0.60%
Over \$100 million	0.50%

Past performance is not indicative of future results. Actual investment advisory fees incurred by clients may vary. Minimum account sizes, fees and fee structure, and other conditions may be waived or modified in the future, and have been waived or modified in the past, at the discretion of Epoch.
