Epoch Global Quality Capital Reinvestment Fund (the "Fund") Class B Institutional (GBP) Accumulating (IE00BK813052)

a Fund of Epoch Investment Funds plc

This Fund is managed by Epoch Investment Partners, Inc.

OBJECTIVES AND INVESTMENT POLICY

Investment Objective

The Fund seeks to provide a total return by investing in a diversified portfolio of companies with persistent, high return on invested capital ("ROIC") which is achieved through their allocation to the growth-oriented uses of free cash flow, namely investment in internal projects and acquisitions.

Investment Policy

The Investment Manager's stock selection process involves a detailed analysis of global equity securities to select companies that have a history of earning a high ROIC relative to their cost of capital and that have positive growth in operating cash flow. The equity and equity-related securities in which the Fund may invest include common stock, preferred stock and securities which are convertible into common or preferred stock. The Fund may also invest in securities issued by listed real estate investment trusts ("REITs"), limited partnerships, master limited partnerships, depository receipts (both American and Global) and rights issues. The Fund may invest up to 10% of net assets in collective investment schemes including equity-related exchange-traded funds. The Fund may also invest in warrants. The Fund will not employ a particular sectoral or geographical focus. However the Fund may invest up to 20% of net assets in securities of issuers that are economically tied to countries with developing, or "emerging market" economies. The Fund may hold both USD denominated securities and non-USD denominated securities. The Fund may also hold and maintain ancillary liquid assets, including

cash and cash equivalents in situations where the Investment Manager deems an appropriate investment opportunity is not available.

The Fund is considered to be actively managed in reference to the MSCI Daily Total Return Net World Index (the "Benchmark") by virtue of the fact that it uses the Benchmark for performance comparison purposes and as a universe from which to select securities. As a result, certain of the Fund's securities may be components of and may have similar weightings to the Benchmark. However, the Fund may deviate significantly from the Benchmark and the Investment Manager may use its discretion to invest in companies or sectors not included in the Benchmark.

Income

Any income the Fund generates will not be paid out but will instead be reinvested to grow the value of your investment.

Subscription and Redemption

You can buy and sell shares in the Fund on any day that banks in Ireland and the New York Stock Exchange are open.

An investor in the Fund is expected to be an informed investor seeking capital appreciation through broad based global equity exposure, and who is willing to accept a medium degree of volatility and a medium to long term investment horizon.

RISK AND REWARD PROFILE

This risk indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The lowest category does not mean risk free.

The risk and reward category may shift over time and is not guaranteed.

Your investment in the Fund is not guaranteed. The Fund is invested in financial assets and instruments and uses financial techniques that are subject to levels of variation, that may result in gains or losses.

A category 1 fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a category 7 fund, the risk of losing your money is high but there is also

a chance of making high gains. The seven-category scale is complex, for example, 2 is not twice as risky as 1.

Why is this Fund in this category?

The capital of the Fund is not guaranteed. The Fund is invested in financial markets and uses techniques and instruments which are subject to some levels of variation, which may result in gains or losses.
