N.A. - Information is not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year. *Results shown for the year 2013 represent partial period performance from July 1, 2013 through December 31, 2013. **Net performance reflects the gross-of-fees return reduced by the actual investment management fee incurred. Effective 1/2016, net performance is calculated by deducting the actual investment management fee incurred by each portfolio in the composite. Prior to 1/2016, net-of-fee returns reflect the deduction of the highest annual management fee in effect at the time (0.85%), applied on a monthly basis. Effective July 2020, the Global Equity Capital Reinvestment Composite name has been changed to the Global Quality Capital Reinvestment Composite. There has been no change to the underlying strategy and/or management of the product. N.P. - Information is not presented because 36 monthly returns are not available.

- Global Quality Capital Reinvestment Composite contains fully discretionary portfolios managed by Epoch using an investment strategy that seeks to provide an attractive total return with market-like volatility by investing in companies worldwide with strong free cash flow and which provide long-term capital appreciation. The strategy will invest primarily in equity and equity-related instruments of companies. The portfolio will invest in companies that generate growing free cash flow and possess management with consistent and successful capital allocation policies with a focus on generating returns for shareholders. The portfolio generally will hold the securities of approximately 90 – 130 issuers from equity markets worldwide. The minimum account size for this composite is \$500 thousand.
- For comparison purposes the composite is measured against the MSCI World (Net) Index [Net total return indices reinvest dividends after the deduction of withholding taxes, using (for international indices) a tax rate applicable to non-resident institutional investors who do not benefit from double taxation treaties].
- Epoch Investment Partners, Inc. claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Epoch Investment Partners, Inc. has been independently verified for the periods June 21, 2004 through December 31, 2020. The verification reports are available upon request. 4. Epoch Investment Partners, Inc. is a wholly owned subsidiary of The Toronto Dominion Bank. Epoch Investment Partners, Inc. (“Epoch”) became a registered investment adviser under the Investment Advisers Act of 1940 in June 2004. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.
5. Results are based on fully discretionary accounts under management, including those accounts no longer with the firm.
6. Valuations are computed and performance is reported in U.S. dollars. Returns are presented gross and net of management fees and include the reinvestment of all income. Gross-of-fees returns are presented before management fees but after all trading expenses. Net performance reflects the gross-of-fees return reduced by the actual investment management fee incurred. Effective 1/2016, net performance is calculated by deducting the actual investment management fee incurred by each portfolio in the composite. Prior to 1/2016, net-of-fee returns reflect the deduction of the highest annual management fee in effect at the time (0.85%), applied on a monthly basis. Returns include the effect of foreign currency exchange rates. Composite and benchmark (international indices) returns are presented net of non-reclaimable withholding taxes.
7. Internal dispersion is calculated using an asset-weighted standard deviation of annual gross returns of those accounts that were included in the composite for the entire year. Internal dispersion figures that are not meaningful due to the limited number of accounts in the composite are annotated by N/A. The three-year annualized standard deviation measures the variability of the composite gross returns and the benchmark returns over the preceding 36-month period.
8. The Global Quality Capital Reinvestment Composite was created in June 2013, and the inception date is June 30, 2013.
