N.A. - Information is not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year. **Net performance reflects the gross-of-fees return reduced by the actual investment management fee incurred. N.P. – Information is not presented because 36 monthly returns are not available.

- Emerging Markets Equity Composite contains fully discretionary portfolios managed by Epoch using an investment strategy that pursues long-term capital appreciation by investing in a portfolio of approximately 60-80 securities of companies located in emerging and frontier markets. The strategy offers investors access to companies with high return potential in the world's fastest growing markets. We select companies based on their ability to generate free cash flow and allocate it intelligently for the benefit of shareholders. Our security selection process is balanced with diversification and risk control measures that should result in below-average portfolio volatility. The minimum account size for this composite is \$500 thousand.
- For comparison purposes the composite is measured against the MSCI Emerging Markets (Net) Index.
- Epoch Investment Partners, Inc. claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Epoch Investment Partners, Inc. has been independently verified for the periods June 21, 2004 through March 31, 2022. The verification reports are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

7. Valuations are computed and performance is reported in U.S. dollars. Returns are presented gross and net of management fees and include the reinvestment of all income. Gross-of-fees returns are presented before management fees but after all trading expenses. Net performance reflects the gross-of-fees return reduced by the actual investment management fee incurred. Returns include the effect of foreign currency exchange rates. Composite and benchmark (international indices) returns are presented net of non-reclaimable withholding taxes.
8. Internal dispersion is calculated using an asset-weighted standard deviation of annual gross returns of those accounts that were included in the composite for the entire year. Internal dispersion figures that are not meaningful due to the limited number of accounts in the composite are annotated by N/A. The three-year annualized standard deviation measures the variability of the composite gross returns and the benchmark returns over the preceding 36-month period.
9. The Emerging Markets Equity Composite was created in December 2017, and the inception date is December 31, 2017.
10. A list of composite descriptions, broad distribution pooled funds, and pooled fund descriptions for limited distribution pooled funds are available upon request.
