1. Non - U.S. Equity Choice Composite contains fully discretionary portfolios managed by Epoch using an investment strategy that pursues long-term capital appreciation by investing in a concentrated portfolio of approximately 30-50 companies outside the U.S. Companies are selected based on their ability to generate free cash flow and allocate it intelligently to benefit shareholders. The portfolio reflects the highest-conviction ideas of our investment team as appropriate for a concentrated portfolio. The minimum account size for this composite is \$500 thousand.
2. For comparison purposes, the composite is measured against the MSCI EAFE (Net) Index. [Net total return indices reinvest dividends after the deduction of withholding taxes, using (for international indices) a tax rate applicable to non-resident institutional investors who do not benefit from double taxation treaties] .
